Doki doki ending guide

If you made it in the first playthrough of the Doki Doki Literary Club, you might be relieved to know that the game has multiple endings for players to discover. In this guide, you'll learn how to get the best ending in a pounding literary club called Enhancement, which ends with DDLC. Players must complete the game at least once to get the best/full ending in the Pounding Literature Club, so finish the game first before continuing with this guide. Pounding Literary Club - Best Ending/Ending Ending Guide Before you can get a fulfilling ending at the Pounding Literature Club, you must first have a clean, un-broken save file. This may sound scary if you haven't played the game yet, but trust us, it's part of every DDLC experience. If you've played at least once through DDLC, chances are you've ended up with Monica's ending. This ending is often referred to as a bad ending or just monica ending because she is the only one left at the end of the game. This is the most common ending for most players in the first playthrough of the DDLC. If you haven't played the game yet, you can skip this section and continue below to get the best ending at the Pounding Literature Club. How to fix your game file after monica ends after winning just monica ending, your game will be ostensibly broken. To access the menu and start another play, you need to fix the broken game files. Fix broken pounding literature club game files and follow these steps to get a fulfilling ending: access the Doki Doki Literature Club game folder on your PC. Open the game folder and look for the firstrun file. Deletes the firstrun file. Restart the Pounding Literary Club and start a new game. After deleting your firstrun file, you should now be able to start a new, fresh playthrough and win the best ending at the Doki Doki Literary Club. Pounding Literary Club - How to get all the cut scenes To get the best ending in the pounding literary club, you need to unlock all the cut scenes for each character in the game before the end of Act 1. To save time, you need to enter your game settings and choose to skip all dialogs that are not visible. If you play Blind Playthrough and follow the steps above, the game will show you the dialogue you think you are playing for the first time and have already seen. Well, your goal from here is to try to win all the character cut scenes before the end of Act 1. You essentially do three separate playthroughs of the game and finish before you reach the end in a certain situation. Unlocking each girl's cut scenes requires a similar step every time: appeal to the girl, write a poem she likes, and confess your love for her. Then you have to finish the game and (in most cases) start over before witnessing any death. Of course, each girl reacts a little differently, so you have to makeadjusted according to the girl you're mouthing. Saori Cut Scene starts a new game and appeals to Saori. Use solemn or bittersweet words when writing poems for Saori to unlock two special cutsens. Confess your love for Saori at the end to get her third cut scene. Don't worry who Saori chose to help prepare for the festival in this playthrough, as it comes to you. But before witnessing Saori's death and the next playthrough in this, make sure you finish on the main menu, or otherwise you won't get the best ending in the DDLC. Start a new summer tree cut scene game (before Saori's death) and now appeal to Natsuki. Unlock two special cut scenes with cute or fluffy words when writing Natsuki's poems. Choose Natsuki to help prepare for the festival at the end to get her third cut scene. When Saori arrives, make sure you finish on the main menu before witnessing her death. Again, when you reach the point where you want to see Saori, finish the game here and start the next playthrough. If you check her out to find her dead, this will ruin your chances of winning the best ending in the pounding literary club. The choices she presents to you are not important here. Yuri Cutseens Starts a new game (before Saori's death) and now appeals to Yuri. Use words that appeal to Yuri when writing her poems to unlock two special cutsens. Finally choose Yuri to help prepare for the festival to get her third cut scene. Do not end up in the main menu to start a new game. This time, we must witness Saori's death. Now it's time to prepare for the uneasy ending of the game. When you unlock Yuri's cut scenes and witness Saori's death, the game glitches and Saori disappears from the game. Instead of restarting, keep playing the game. Things get a little hectic as the girls go crazy and Monica now removes the rest of the characters. The game plays like Monica's ending, but this time we've collected all nine girl cut scenes (three scenes from Saori, Natsuki and Yuri). Do not delete the moniker when you receive a delete message. Instead, play a game with Monica in Boyd, write her a poem and continue her dialogue until she sits down and stares at you. Then open the game installation file. Because you are deleting other files, only monika folders must exist in the character file. All you need to do now to achieve a good ending in DDLC is to delete the 'monika.chr' file. When you return to the game, in some dialogue, a glitched version of the moniker remains. Eventually it will be sent back to the main menu and Monica should be missing. Start another game and continue through the dialogue, cut scenes with Saori. The game starts to glitch and after the credits you will see a special message from the developer at the end. Congratulations, you just won the best ending at the Pounding Literacy Club!By following these steps, you'll be unlocking the best/fulfilling endings in the pounding literary club. The game is more than broken from here, so you need to delete the 'firstrun' file as mentioned above or reinstall the game and do another playthrough. There are bad endings, best endings, special endings. The Doki Doki School of Letters is not a traditional visual novel. This is different from what the game allows, the amount of actual endings to the game. You may see the End screen many times during the playthrough, but some of them are not the end, they are like checkpoints. The game has three actual endings: a bad ending, the best ending, and an alternative special ending. Obvious spoilers ahead. This is your warning. Bad ending This is the ending that most players receive in the first playthrough. There are no special requirements to get this ending. All you have to do is reach the end of the game. The selected dialog option is not affected by this. This is not a traditional visual novel, so you can't read and cruise the game. The game may appear to freeze or loop, but there is usually a fourth wall corruption solution. Here's how to get through some of these segments: When the game suggests you can reload the game and fix something, keep playing as normal. You don't have to reload the old save file to get a bad ending. After getting the first end screen, the game is not over. Simply select the option in the main menu that replaces the New Game option. During the scene with Yuri, where the text box continues to make gibberish, press the Skip command and wait for a while to move forward. During a scene with Monica towards the end of the game, she will tell you how to move forward. You need to delete the 'monika.chr' file in the game's file directory. If you downloaded a game from a website, all you have to do is find the files in the character folder in the same folder that you want to use to launch the game.
